

18910 Hwy 99
LYNNWOOD, WA 98036

Thank You for your interest in our dealer program for *Dragonfly Cycle Concepts!* We're designing cutting edge, custom bike products for touring riders and we are confident that we can help your business grow. Upon approval of the items below, you will receive a Dealer Packet including Dealer Price Sheet, Retail Order Form, current catalog and a Resale Certificate we need signed and mailed back. If you'd like a FAXED or emailed copy of the Dealer Price Sheet upon approval, please include that in your application:

- Copy of current Business License or Resale Certificate or equivalent
- Copy of current phone book listing of shop under Motorcycle Dealers, Parts & Supplies or Repair
- Contact info for 3 motorcycle industry companies with which you have a current dealer account

These parts are our top sellers:

Dragonfly Detachable Fairings (DTF8) Each piece is of machine-stamped quality, injection molded composite materials, and comes in black gel-coat ready to be painted. We can factory-match most Harley-Davidson paint, including two-toned, pinstripes, Screamin' Eagle and 100th Anniversary striped paint schemes. Our fairings are designed to fit our exclusive waterproof, LCD Screen Dragonfly Stereo, but will make a fairing with hole for a single-DIN sized stereo and most 6"x9" speakers and 12-volt accessory plugs. Our optional stereo package was designed especially to be used on a touring motorcycle. It includes a 180-Watt JBL brain box with AM/FM tuner, is MP3 compatible, Sirius satellite radio ready and boasts a 1GB internal harddrive! The package also includes 6x9 speakers and wiring harness with antenna. Our exclusive **Stereo Hand Controls Kit** allows your customer to have the same handlebar controls for stereo as the Electra Glide owners, with housings that match his current controls.

Plug and Play Electra Glide Stereo Upgrade Kit with 6 1/2" speakers & adapters lets your factory dresser owner get superior sound. This complete kit allows a fully waterproof LCD screen stereo and bigger speakers to fit into Electra Glide® (Standards, Classics and Ultras), Street Glide® and Road Glide®. With our plug and play interface module, your customer can have all the convenience of his factory controls. Combine with our Tour Pack Speaker Pods and upgraded, larger speakers to match for a full system upgrade your customers will love!

Tour Pack Speaker Pods (TPSP) fit on the full-sized Harley Tour Pac®, but house larger, 6 1/2" speakers for half the price Harley charges for smaller pods. Our pods match the seat in smooth black, soft-touch vinyl. 6 1/2" speakers are sold separately so your customer can match his head unit, but our speakers are an easy up sell with the stereo upgrade kit above.

As we are always adding new products to our line, please check out our website for more potential sales to your customers! Your dealer representative is always available to answer your questions toll free below. We look forward to building a working relationship!

Sincerely,
Kevin Martin-Owner
